

Legacy Navigators

Strategic Problems	Tension
1. Leaders struggle to build scalable platforms that allow client customization, leading to brittle growth architectures.	Scale <-----🥵-----> Customization
2. Executives misjudge the true complexity of modernizing legacy systems, leading to delayed or failed transformations.	Transformation <-----🙄-----> Legacy Systems
3. Efforts to digitize customer experiences prioritize efficiency at the cost of emotional connection, weakening brand loyalty.	Emotional Resonance <-----🤯-----> Digital Innovation
4. Decision-makers either over-trust or mistrust automation, failing to balance digital insights with human judgment.	Predictive Analytics <-----🧠-----> Human Intuition
